About Me

Dedicated and detail-oriented Financial Analyst with 10 years of experience. Eager to apply proven-budget maximization skills for Bank of Brocelle in monitoring, maintaining, and completing client billing and reconciliations. Special interest in achieving the millennial market and helping with retirement and general financial planning.

Professional Experience

- Developed responsive websites using HTML, CSS, and Bootstrap framework, ensuring compatibility across various devices and browsers.
- Leveraged Python programming language to implement backend functionality, such as server-side scripting and data management.
- Collaborated with clients to understand project requirements, provide technical recommendations, and deliver tailored web solutions that met their needs.
- Implemented user interface designs using HTML, CSS, and Bootstrap to create visually appealing and user-friendly websites.
- Currently enhancing front-end interactivity and functionality by learning JavaScript and integrating it into web development projects.
- Actively studying UX/UI principles to incorporate best practices for improving user experience and interface design in web development projects.

Achievements

Developed Portfolio Websites:
- Created two portfolio websites showcasing proficiency in web development technologies, including HTML, CSS, and Bootstrap.
- Demonstrated ability to design and implement responsive and visually appealing user interfaces.
- Received positive feedback from peers and mentors on the quality and professionalism of portfolio projects.

Continuous Learning and Improvement:
- Actively engaged in self-study and online courses to enhance skills in programming languages and web development.
- Currently expanding knowledge and capabilities by learning JavaScript for front-end interactivity and UX/UI principles for improved user experience.
- Demonstrated dedication to personal and professional growth in the field of IT and web development.
